## ⚠ WARNING

### ⚠ DANGER

**PREVENT DROWNING!**  
CLOSELY WATCH CHILDREN WHO ARE IN OR NEAR THIS POOL. CHILDREN UNDER 5 ARE AT HIGHEST RISK FOR DROWNING. EMPTY POOL OR PREVENT ACCESS WHEN NOT IN USE.

**NO DIVING!**  
YOU CAN BREAK YOUR NECK AND BE PARALYZED.

## Safety Care for Children

### Drowning Risk:

1. Prevent Young Children From Drowning:
  - a. Install fencing or approved barrier around all sides of pool.
  - b. Children under 5 are at highest risk for drowning.
  - c. Closely watch children who are in or near this pool.
  - d. Empty pool or prevent access when not in use.
2. Prevent Young Children From Gaining Access to Pool:
  - a. Remove pool ladders before leaving pool. Toddlers can climb ladder and get into pool.
  - b. Position furniture away from pool so that children cannot climb and gain access to pool.
  - c. When leaving pool, remove floats and toys from pool that might attract a child.
3. Assign an adult to be responsible for watching children in the pool. Give this person a "water watcher" tag and ask that they wear it the entire time they are in charge of supervising children in the pool. If they need to leave for any reason, ask this person to pass the "water watcher" tag and the supervision responsibility to another adult. **For replacement of the water watcher tag, Please visit [www.polygroupstore.com](http://www.polygroupstore.com)**
4. Pool presents a drowning hazard even during filling and draining of the pool. Maintain constant supervision of children and do not remove any safety barriers until the pool is completely empty and stowed away.
5. Children, especially children younger than five years, are at high risk of drowning. Drowning occurs silently and quickly and can occur in as little as 2 in (5 cm.) of water.
6. Keep children in your direct sight, stay close, and actively supervise them when they are in or near this pool and when you are filling and emptying this pool.
7. When searching for a missing child, check the pool first, even if child is thought to be in the house.
8. Empty pool completely after each use, and store the empty pool in such a way that it does not collect water from rain or any other source.
9. Keep unsupervised children from accessing the pool by installing fencing or other approved barrier around all sides of pool. State or local laws or codes may require fencing or other approved barriers. Check state or local laws and codes before setting up pool.
10. See latest published edition of CPSC Pub. No. 362 found at [www.poolsafely.gov](http://www.poolsafely.gov).
11. Do not leave toys inside pool when finished using, since toys and similar items might attract a child to the pool. Position furniture (for example, tables, chairs) away from pool, so that children cannot climb on it to gain access to the pool. After using pool, remove water to a level of 1/2 in. (1 cm.) or less.

### Diving Risk:

Do not dive into this pool. Diving into shallow water can result in a broken neck, paralysis, or death.

### Electrocution Risk:

Keep all electrical lines, radios, speakers, and other electrical appliances away from the pool. Do not place pool near or under overhead electrical lines.

### First Aid:

Keep a working phone and a list of emergency numbers near the pool. Become certified in cardiopulmonary resuscitation (CPR). In the event of an emergency, immediate use of CPR can make a life-saving difference.

### ⚠ WARNING:

1. This pool must be assembled on a smooth and level site of firm soil that is free of stones, gravel, sticks, black-top or other oil based compounds.
2. Do not install pool on a wooden deck or any type of wooden surface.
3. Do not install the pool on a slope or inclined surfaces, on soft or loose soil conditions (such as sand or mud), or on an elevated surface such as a deck, platform or balcony, which may collapse under the weight of the filled pool.
4. This pool should be set up so that it complies with local safety and building codes. The pool is to be assembled by an adult; care should be taken in the unpacking and assembly of the pool, this pool may contain accessible potentially hazardous sharp edges or sharp points that are a necessary part of the function of the pool.
5. **CAUTION:** Keep out of baby's reach.
6. **WARNING:** Use only under supervision.
7. The product must be assembled and disassembled by adult.
8. **WARNING:** Only for domestic use.

## CONSUMER AWARENESS BOOKLETS

Contact U.S. Consumer Product Safety Commission (CPSC) at [www.poolsafely.gov](http://www.poolsafely.gov) for publication "Safety Barrier Guidelines for Residential Pools". Contact The Association of Pool & Spa Professionals (APSP, formerly NSPI) at [www.APSP.org](http://www.APSP.org) for these publications: "The Sensible Way to Enjoy Your Above-ground/On-ground Swimming Pool", "Children Aren't Waterproof", "Pool and Spa Emergency Procedures for Infants" and "Layers of Protection".

## DANGER

Competent supervision and knowledge of the safety requirements is the only way to prevent drowning or permanent injury in the use of this product! Never leave young children unattended.

## SETUP INSTRUCTIONS

### Inflating Instructions

**CAUTION:** Inflate by adult only. DO NOT overinflate, use high pressure air compressor to inflate, or exceed the recommended Design Working Pressure. Inflate with cold air only.

1. Locate a clean area free of stones or other sharp objects to inflate the pool.
2. Inflate the air chambers following the numbered sequence (if any) slowly with a manual/foot air pump.  
**The adequate air pressure:** make sure the pool is firm to the touch but NOT hard - there should be small folds around the armrests, backrests and/or side edges, and below the cup holders (if any). Also compare the pressure with that of the large main chamber.
3. Close and press the inflation valves into the unit to get a flat surface.
4. Check regularly to ensure the adequate air pressure during each use, especially on very hot or cold days.

**NOTE:** Fill the pool to the FILL LINE marked on its inner wall or slightly below the top edge of the pool. Do not overfill the pool.

**Emptying And Deflating Pool:** Deflate pool and/or push down on side wall to empty pool water and/or lift up one side of pool to empty pool water.

- NOTE:**
1. Pool can be cleaned with mild soap and lukewarm water only.
  2. Make sure pool is completely dry before storing to help prevent mildew from forming.
  3. Store all parts in a dry, temperature-controlled area where temperatures do not go below 32°F or above 125°F.
  4. Use a small patch kit to repair punctures or holes in pool.

### Repair

1. Use a mix of liquid dish soap and water in a spray bottle, and spray over suspicious areas. Any leak will produce bubbles that will pinpoint the location of the leak.
2. Thoroughly clean the area surrounding the leak to remove any dirt or grime.
3. Cut a piece of repair patch (included) with a margin of 0.8" (2 cm) larger than the damaged area, rounding the corners with scissors.
4. Place the patch over the center of the leak, press down firmly, and squeeze out all air bubbles to the edges. You may want to put a weight on top to keep it in place.
5. Do not inflate for one hour after patching.

**NOTE:** if the patch does not hold, you can use the patch with silicone- or polyurethane-based glue designed for repairing camping mats, tents or shoes. Consult your local household/camping supply stores, and follow the instructions of the glue you've chosen.

# 3D GOGGLES

## ⚠ WARNING

### 1. WARNING:

- Only use under supervision.
  - Never pull goggles away from face, as they may spring back and cause eye damage.
2. **CAUTION:** Keep out of baby's reach.
  3. Do not leave child unattended with product while in use.
  4. Avoid scratching the goggles' lens.
  5. Do NOT dive into the water wearing goggles.
  6. The product is not a life-saving device.
  7. The product must be assembled/disassembled by an adult.
  8. Keep the assembly and installation instructions for further reference.
  9. Goggles are for children only.
  10. Keep the product away from fire.

## USE & CARE

### Wearing Goggles:

1. Remove the protective film from the goggles' lens before use.
2. Adjust the goggles' head strap and bridge strap to a proper and comfortable position.
  - The head strap is used to hold the goggles in place.
  - Tighter is not necessarily better, as this may cause discomfort and markings around the eyes.
  - Correct adjustment can be obtained by adjusting the band until a comfortable fit is achieved.
  - Correct adjustment of the bridge strap is essential for both comfort and a watertight seal.
3. To avoid water intake, slide the lenses closer together or further apart one notch at a time until the correct fit is obtained.
4. To clear water or to adjust goggles, take a firm grip on the goggles' lens and tilt the lower edge of the goggles' lens slightly away from the face.
5. To remove the goggles, put thumbs under head strap at side of head. Slide thumbs to back of head, and lift elastic from back to front of head.
6. It is recommended that teachers, coaches, or mature swimmers demonstrate this method to young children.

### The 3D Goggles must be worn to see 3D effects

#### Care Instructions:

1. Rinse goggles with cold clean water before storage.
2. Air-dry the goggles, and store it in a dry place. Do not store it under direct sunlight.
