Should you encounter a problem with your Polygroup® Product, DO NOT return the product to the place of purchase. All warranty claims must be made directly to Polygroup®. For any setup and troubleshooting issues, please visit [support.polygroupstore.com](http://support.polygroupstore.com). Customer Service: +1 (888) 919-0070. You may be asked to return all or part of the product for inspection and/or repair. Do not return any product to Polygroup® without a Return Merchandise Authorization number.

## Limited Warranty

Polygroup® Trading Limited (hereinafter "Polygroup®") makes products at the best quality we are able to offer. Polygroup® is pleased to offer warranty for the repair or replacement of pool products for 90 days from the date of purchase. The provisions of this Limited Warranty only apply to the original purchaser. Please keep your original store sales receipt, as this proof of purchase will be required and must accompany warranty claims to Polygroup® or its designated agents. This Limited Warranty does not apply without proof of purchase; or should the purchaser modify or repair the product themselves or by unauthorized people; use non-Polygroup® parts or accessories with the product; use the product in contravention of the manufacturer's instructions; use improper voltage; abuse the product in any way; or through accident or negligence. This Limited Warranty will not cover consequential damages, including claims for loss of water, pool chemicals, damage, or labor, normal wear-and-tear; nor acts of God outside the control of Polygroup®. Non-manufacturing defects, such as grasses that may grow through the ground cloth and/or pool liner are examples of which Polygroup® cannot be held responsible for.

IN NO EVENT SHALL Polygroup®, ITS AUTHORIZED AGENTS, RELATED ENTITIES, OR EMPLOYEES BE LIABLE TO THE BUYER OR ANY OTHER PARTY FOR DIRECT OR CONSEQUENTIAL DAMAGES. Some states or countries, or other jurisdictions, do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This Limited Warranty is not extended to close-outs, factory seconds, or resold products (i.e. garage sales, online auctions, or online retailers not purchased directly from Polygroup®). Any issues with items purchased from these types of vendors / sellers will need to be addressed through these stores. Items purchased from seasonal stores will be treated with an "All Sales Final" Policy.

## IMPORTANT SAFETY INSTRUCTIONS

When installing and using this electrical equipment, basic safety precautions should always be followed, including the following:

### READ AND FOLLOW ALL INSTRUCTIONS

Keep for future reference. Failure to follow these warnings and instructions can result in serious injury or death to users, especially children

## WARNING

### DANGER

To reduce the risk of electric shock:

- Always unplug this air pump from the electrical outlet before cleaning.

### WARNING

To reduce the risk of burns, fire, electric shock, or injury to persons:

- Do not operate the pumps for more than 10 minutes. The Electric Pump is designed to fully inflate your inflatable within 3 minutes.
- Never leave the pump unattended when power is on.
- Close supervision is necessary when this air pump is used by or near children, invalids, or disabled persons.
- Keep infant and small children away from this air pump when it is not in use.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- Use this air pump only for its intended use as described in these instructions. Do not use attachments not recommended by the manufacturer.
- Never operate this air pump if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or dropped into water. Return the air pump to a service center for examination and repair. Do not attempt to replace the cord.
- Keep the cord away from heated surfaces.
- Never operate the air pump with the air openings blocked. Keep the air openings free of lint, hair, and the like.
- Never drop or insert any object into any opening.
- For indoor use only. Do not use outdoors. Do not use or place this product near water.
- For household / residential use only.
- Keep this product away from sharp and pointed objects.
- Do not operate where aerosol (spray) products are being used or where oxygen is being administered.
- To disconnect, turn off the power switch, then remove plug from outlet.
- After the inflatable is properly inflated and desired firmness is attained, always unplug the air pump.
- Disconnect the air pump from the power supply before servicing.
- Do not operate any air pump with a damaged cord or plug. Discard air pump or return to an authorized service facility for examination and / or repair.
- Do not run cord under carpeting. Do not cover cord with throw rugs, runners, or similar coverings. Do not route cord under furniture or appliances. Arrange cord away from traffic area and where it will not be tripped over.
- SAVE THESE INSTRUCTIONS for future reference.

## SETUP AND OPERATION INSTRUCTIONS

Before assembling your product, please take a few minutes to check the contents and become familiar with all the parts.

1. Select a flat indoor surface large enough to accommodate the inflatable.
2. Remove all sharp and pointy objects on and near this surface.
3. Remove the air pump from the packaging.
4. Insert the nozzle that fits with the inflatable to the pump inflate outlet (Fig. 1).
5. Lay the bottom of the inflatable on the selected surface.
6. Orient the inflatable properly.

7. To inflate the inflatable:

- Plug the cord to a household wall outlet of 110 to 120V.
- Push the power button to start the air pump (Fig. 2).
- The inflatable will be automatically inflated.
- Turn off the air pump by pressing the power button.
- Unplug the cord.

8. To quick deflate the inflatable:

- Clean and dry the inflatable. See below, "Care, Storage & Maintenance."
- Insert the nozzle to the air pump deflate outlet (Fig. 2).
- Plug the cord to a household wall outlet of 110 to 120V.
- Push the power button to start deflating the inflatable (Fig. 2).
- The inflatable will be deflated automatically.
- Turn off the air pump by pressing the power button.
- Unplug the cord.

9. To reduce the risk of electric shock, this air pump has a polarized plug (one blade is wider than the other).

This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug.

If it still does not fit, contact a qualified electrician to install the proper outlet. Do not change the plug in any way.

10. Use only a 2-wire extension cord that has a 2-blade polarized plug, and a 2-slot receptacle that accepts the plug on the product. Make sure your extension cord is not damaged. When using an extension cord, be sure to use one heavy enough to carry the current your product draws. Do not use extension cords longer than 50 ft. The extension cord shall be rated at least 300v, and with size no smaller than 18 awg, cord type shall be no lighter than SPT-2, such as SVT, HPN, SJT are acceptable cord. Overheating, short circuit and fire damage will result from inadequate wiring.

To Inflate

Fig.2  
To Deflate

## CARE, STORAGE & MAINTENANCE

- Save the original packing box for storage purposes.
- Let the air pump cool down for at least 30 minutes before storage.
- Store the air pump in a cool/dry place. Keep out of reach of direct sunlight and chemical substances.
- The motor of this air pump is protected by a thermal overload protection device. This device detects any over-heat condition and switches off the motor automatically; the motor will be switched on automatically upon cooling down.
- This air pump does not contain any user serviceable parts; any other servicing is to be performed by an authorized service representative.
- Use only a damp cloth soaked in mild soap/detergent and water to clean the outer surfaces of the air pump. Do not use any kind of chemical or solvent. Always unplug the air pump and stow the cord during cleaning.
- Do not twist the supply cord while in use.

## SERVICING OF DOUBLE INSULATED PRODUCT

In a double-insulated product, two systems of insulation are provided instead of grounding. No means for grounding is provided on a double-insulated product, nor is a means for grounding to be added to the product. Servicing a double-insulated product requires extreme care and knowledge of the system, and is to be done only by qualified service personnel. Replacement parts for a double-insulated product must be identical to the parts they replace.

## DISPOSAL & ENVIRONMENT

1. This product must not be disposed of with domestic wastes.
2. This product has to be disposed of at an authorized place for recycling of electrical & electronic appliances.
3. By collecting and recycling waste, you help save natural resources, and make sure the product is disposed of in an environmental and healthy way.
